

A NEBULA is a rotary atomiser.
It turns water into a fog of small droplets.

NEBULISER

Radio Remote

240//24V Power Supply

Technical data	
Dimension	diameter 100mm x 75 mm depth
Weight	400 grams
Life Time	3+ years
Power supply	Input AC 110 - 220V, 50 ~ 60Hz, Output 24 V DC, 50 Watt
Cooling Output	Up to 20 kW
Water usage	0 to 30 liters / hour / Nebula
Cooling Technique	Evaporative Cooling
Water pressure input	Regular mains pressure

- **Install overhead. Connect Water and Power. Will cover an area of approximately 20m²**
- **Set Output with Remote Control**
- **Sit Back and be Cooled.**
